

Precise Biometrics to Join Redeye CyberSecurity Day 2025

Precise Biometrics, a global pioneer in biometrics and cybersecurity solutions, will participate in Redeye CyberSecurity Day 2025 in Stockholm on September 16. The event gathers leading companies, investors, and experts to discuss key trends and challenges in the cybersecurity landscape.

Precise's CEO, Joakim Nydemark, will deliver a presentation highlighting the company's role in strengthening digital trust through advanced biometric authentication and AI-driven anti-spoofing technologies. He will also take part in a panel discussion focusing on the investor perspective, and how the industry can respond to the rapidly changing security climate and growing demand for trusted identity solutions.

The presentation will be live streamed on September 16 and available on demand after the event. A full agenda and broadcast details are available on [Redeye's website](#).

Joakim Nydemark, CEO at Precise Biometrics, comments.

"Cybersecurity threats are increasing in scale and sophistication, making identity verification one of the most critical safeguards in today's digital society. Our mission is to ensure secure and seamless access to data, devices, and places – and to enable trust in a world where digital and physical identities converge".
